

The first result of the project is ready!

The DIGITAL READINESS COMPETENCES DICTIONARY is now available! This bespoke multi-level competences dictionary covers 11 areas and was designed following a two-level progression model based on the EQF (European Qualifications Framework), ECVET (European Credit System for Vocational Education and Training) and EntreComp (The European Entrepreneurship Competence Framework) European frameworks. Each competence is detailed in terms of learning outcomes, i.e., knowledge, skills and attitudes, for intermediate and advanced levels of proficiency. The first focuses on building the independence of the user, and the second on making them responsible for their decisions when working with others.

DIGITAL READINESS COMPETENCES

Partners meet for the second transnational project meeting

In July 2022, partners met in Valencia, in hybrid format, to progress on project implementation and agree on next steps for the development of upcoming results - MOOCs on DIGITAL READINESS; DIGITAL READINESS SAT, and WOMEN GET READY Avatars and Upskilling HUB.

Next steps

- o Development of the learning resources for the Massive Open Online Courses (MOOC)
- o Design the online self-assessment tool for pre-post competences assessment
- o Consult for second time the Pool of Stakeholders in Belgium, Cyprus, Greece, Italy, Ireland, Poland, Portugal and Spain
- o Meet for the third transnational project meeting in Pescara
